RB- Railway Business

MEB – Merchant Export Business

Performance Highlight

Railway Electrification Segment

During the quarter year ended 30th September 2022, Railway Business of the Company has been able to come out of the trajectory of the head wind conditions created by the COVID 19 pandemic and the management is of the firm view that the business of the Company would get even better because of the healthy financial condition of the company and the buoyancy in the Indian Economy.

But the management of the Company would continue to keep a strong vigil on the present geo political situation which has manifested as a very strong risk factor in the global business environment.

The Management of the Company is optimistic about the plans of the Government towards the infrastructure sector of the country and hopes to bag significant quantum of orders from the Railways.

The order book position of the company at the end of the quarter worth Rs.18995.10 lacs.

Merchant Exports Business

The favourable exchange rates resulting from the rise of the US Dollar has helped in improving the margins in the Merchant Export business where EBIDTA has improved significantly from 3.32% to 4.15%. The Management is also taking proactive steps to maintain the margins through various steps like product rationalisation and improvement in delivery cycle. Steps taken by the Government of West Bengal in reducing border congestion would also contribute significantly in improvement in the margins in the quarters ahead.

Rice Bran Oil Extraction Project by BCL Bio Energy Private Limited (subsidiary)

Work on the project is in progress and investments to the tune of Rs. 741.87 lacs have been made till 30th September, 2022. The Management is hopeful of starting commercial operations from the second half of FY 23-24.
